Management Information Systems
Undergraduate Curriculum

What is MIS?
MIS deals with applying information technologies (IT) to solve business problems. MIS undergraduate curriculum will prepare you to understand the function of IT in business organizations, and it will teach you how to plan for, develop, use, and manage IT tools in order to help organizations achieve their goals related to information processing and management.

Changes in MIS curriculum (as of Fall 2008)
Starting in Fall 2008 semester, there will be the following major changes in MIS curriculum:

- **IDSC 3201 – Introduction to Programming for Systems Development (4 credits)** will be split into the following two courses:
  - IDSC 3101 – Introduction to Programming (2 cr.)
  - IDSC 3102 – Intermediate Programming (2 cr.)
- **IDSC 4203 – Information Technology Infrastructure (4 cr.)** will be split into the following two courses:
  - IDSC 3103 – Introduction to Databases (2 cr.)
  - IDSC 3104 – Business Communication Technologies (2 cr.)
- **IDSC 4204 – Information Services Management (4 cr.)** will be a writing-intensive course (**IDSC 4204W**).
- A new required 2-credit course – the MIS capstone course – will be added to the MIS curriculum (tentative course number: **IDSC 4301**).
